

## SOCIAL MEDIA & OUTSIDE URL LINKS WORKSHEET

A website has become a central landing point on the internet which serves as a home base to direct a user to various other places having to do with your business. Social media has become a must-have for direct user contact when applicable to the business or website. Please fill in the URLs below where you would like users directed from your website. Fill in all that are applicable and add any other outside links that you would like to use as links or embedded features in your website.

For EXACT link urls, go to your pages and copy down exactly what shows in the browser address line.
