

"Knackert Media makes the seemingly impossible .... very possible. I have used them on many projects now, some small and some rather large. They have continued to exceed my expectations on every project. I think the big difference is that the owner really listens to what you want and not just what they want to do. They don't seem to be hampered by creative limitations.

I would highly recommend Knackert Media LLC. To anyone, business, personal, large or small they seem to have the creativity to do it all."

*Kevin Strange - Host/Producer - Rock N' Roll Grille*

"Knackert Media has put my business in a higher category above my competition. Its user-friendly interactive style allows my customers to be informed on our business before they even walk through the door. The popularity of our website also drives our Google listing up to the very top! We don't pay Google any extra for this, we just have so much website traffic. Our website has actually given us so much business, we struggle to keep up with it.

My customers always compliment us on its looks and ease of use too. They are able to read about services, check prices, book an appointment, send us a message, inquire about bridal services, and even buy instant gift certificates. Without Knackert Media, our young new business would be still be struggling, but instead, we're thriving!!!"

*Angela Schulz - Owner - Rockabetty's Salon & Spa*
